

FOOD SECURITY: The governments of the world agreed on...

"The Committee affirms that the right to adequate food is indivisibly linked to the inherent dignity of the human person and is indispensable for the fulfilment of other human rights... The right to adequate food is realized when every man, woman and child, alone or in community with others, has physical and economic access at all times to adequate food or means for its procurement."

International Covenant on Economic, Social and Cultural Rights,
General Comment 12 on the Right to Adequate Food, 1999.

"We consider it intolerable that more than 800 million people throughout the world, and particularly in developing countries, do not have enough food to meet their basic nutritional needs."

World Food Summit Plan of Action. Rome, 1996.

HUMAN RIGHTS

The right to food is enshrined in:

UDHR - Art. 25
CESCR - Art. 11
CRC - Art. 24 & 27

INTERNATIONAL COMMITMENTS

Food security is considered in:

Millennium Development Goals - Goal 1
World Summit for Social Development - Commitment 6
Fourth World Conference on Women - Beijing Platform for Action - Critical Areas of Concern
