

Commitment 1a:
To achieve completion of primary education for at least 80% of school age children by 2000

Commitment 1b:
To provide universal access to basic education for all school age children by 2000

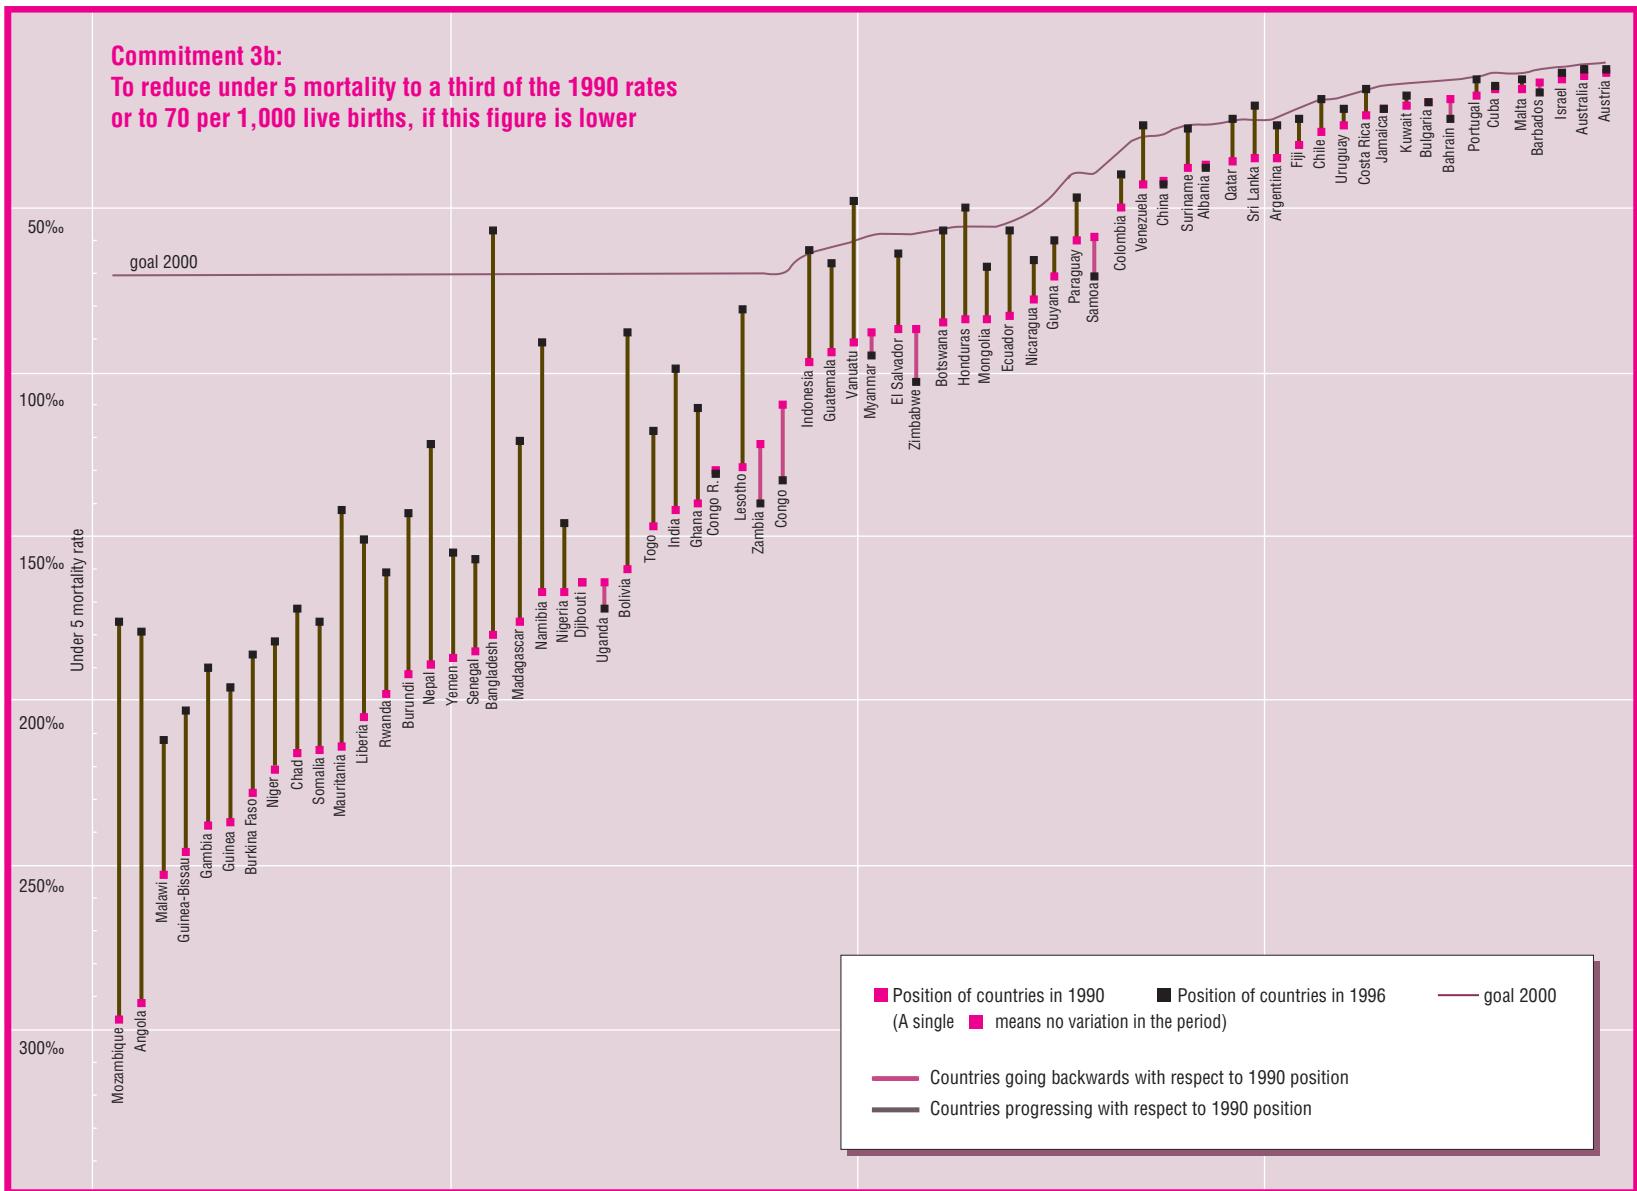

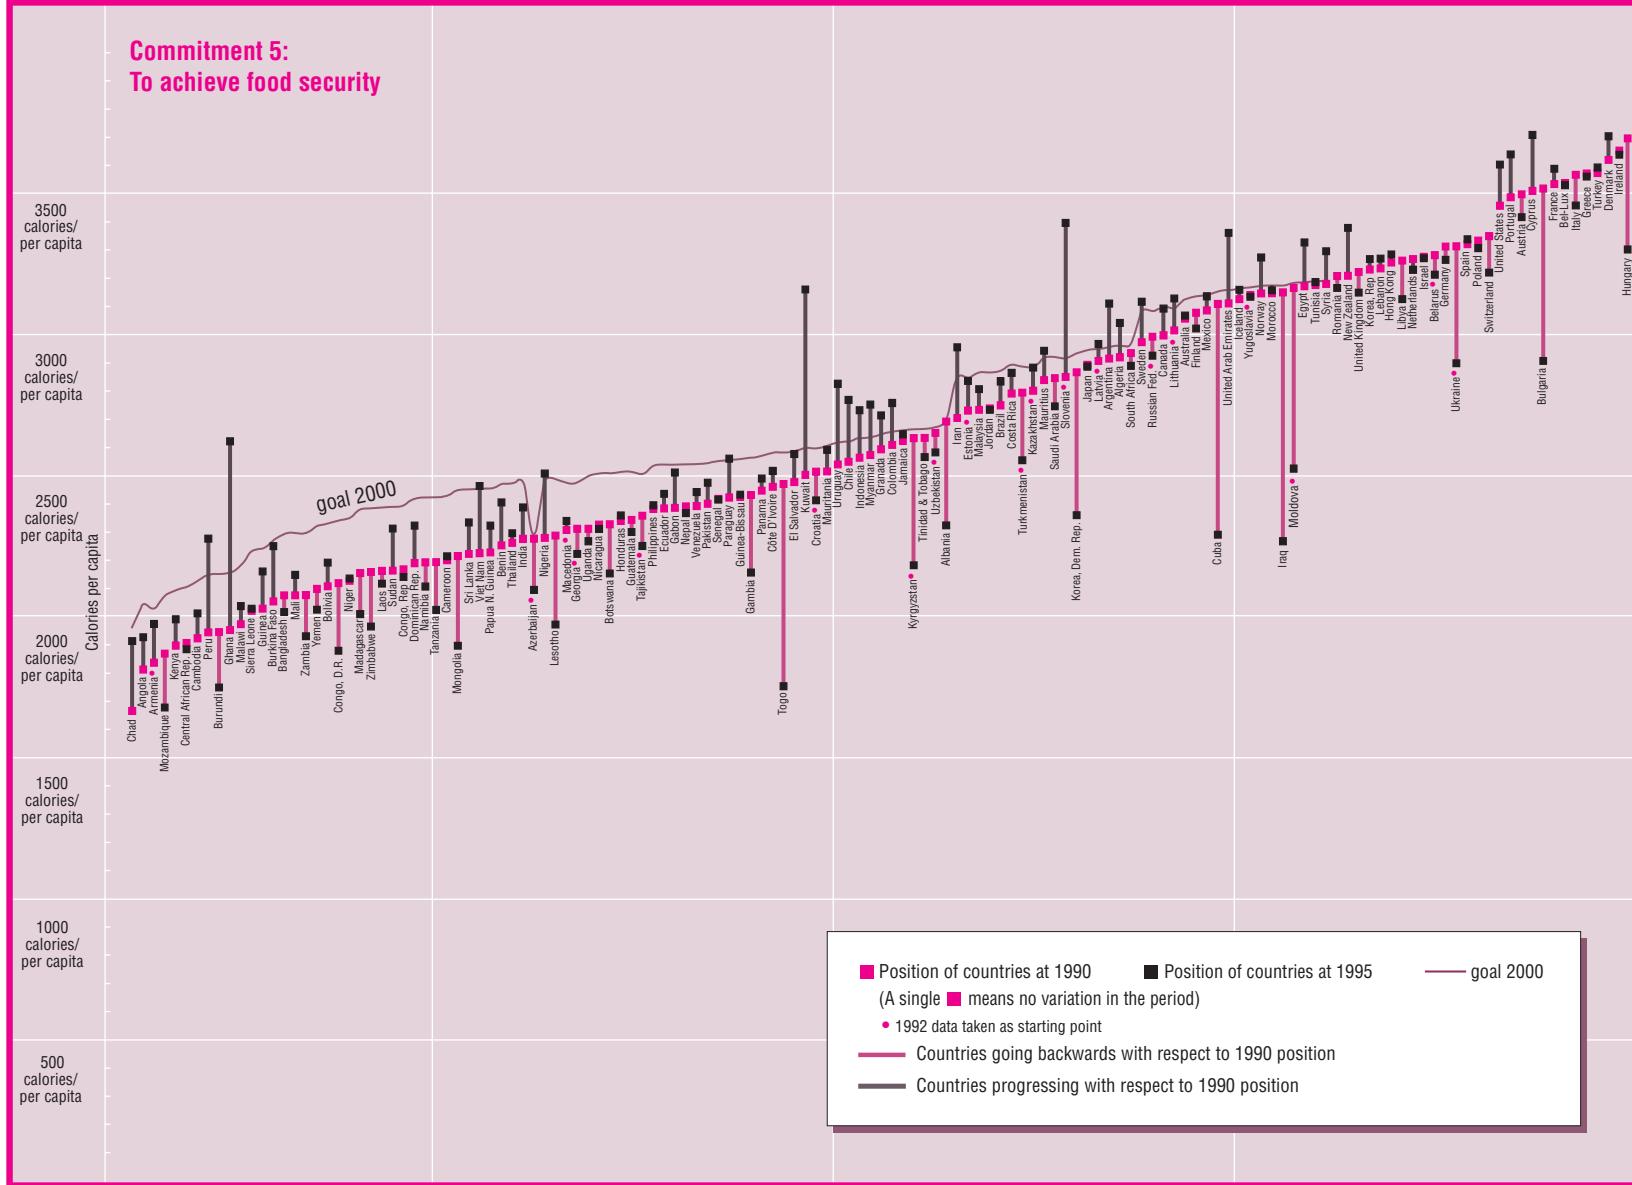

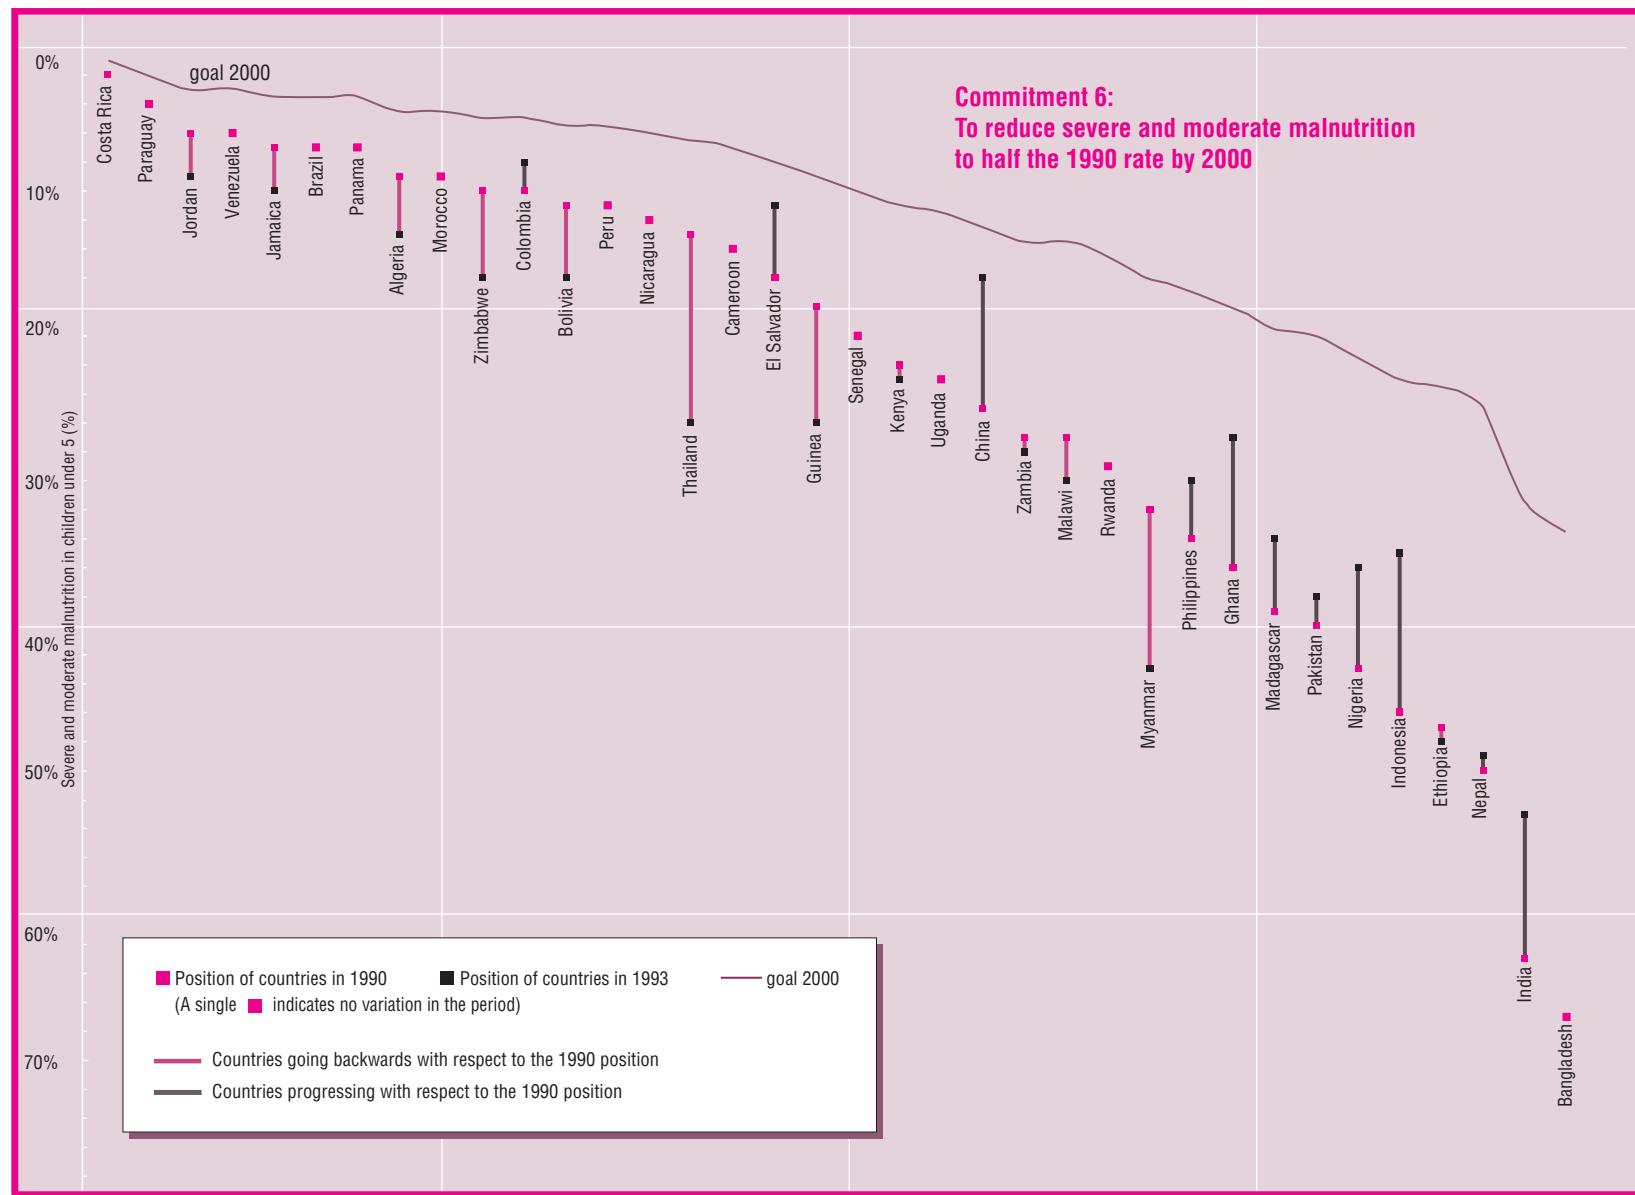

Commitment 3b:

To reduce under 5 mortality to a third of the 1990 rates
or to 70 per 1,000 live births, if this figure is lower

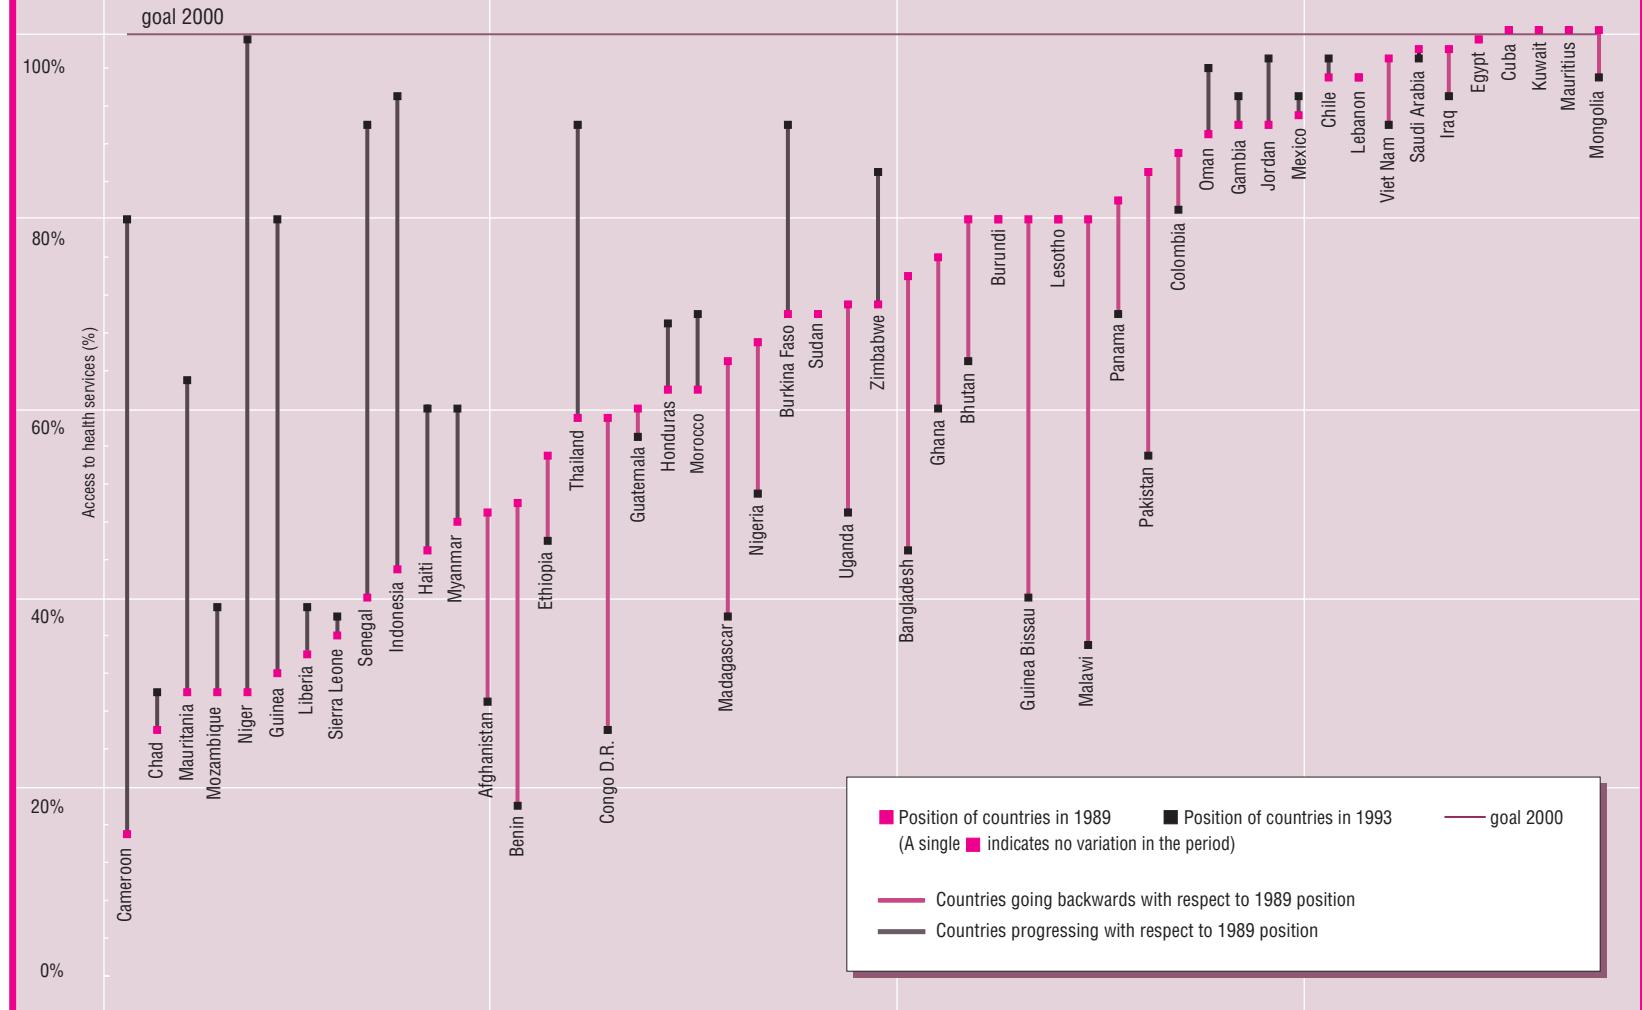

Commitment 5: To achieve food security

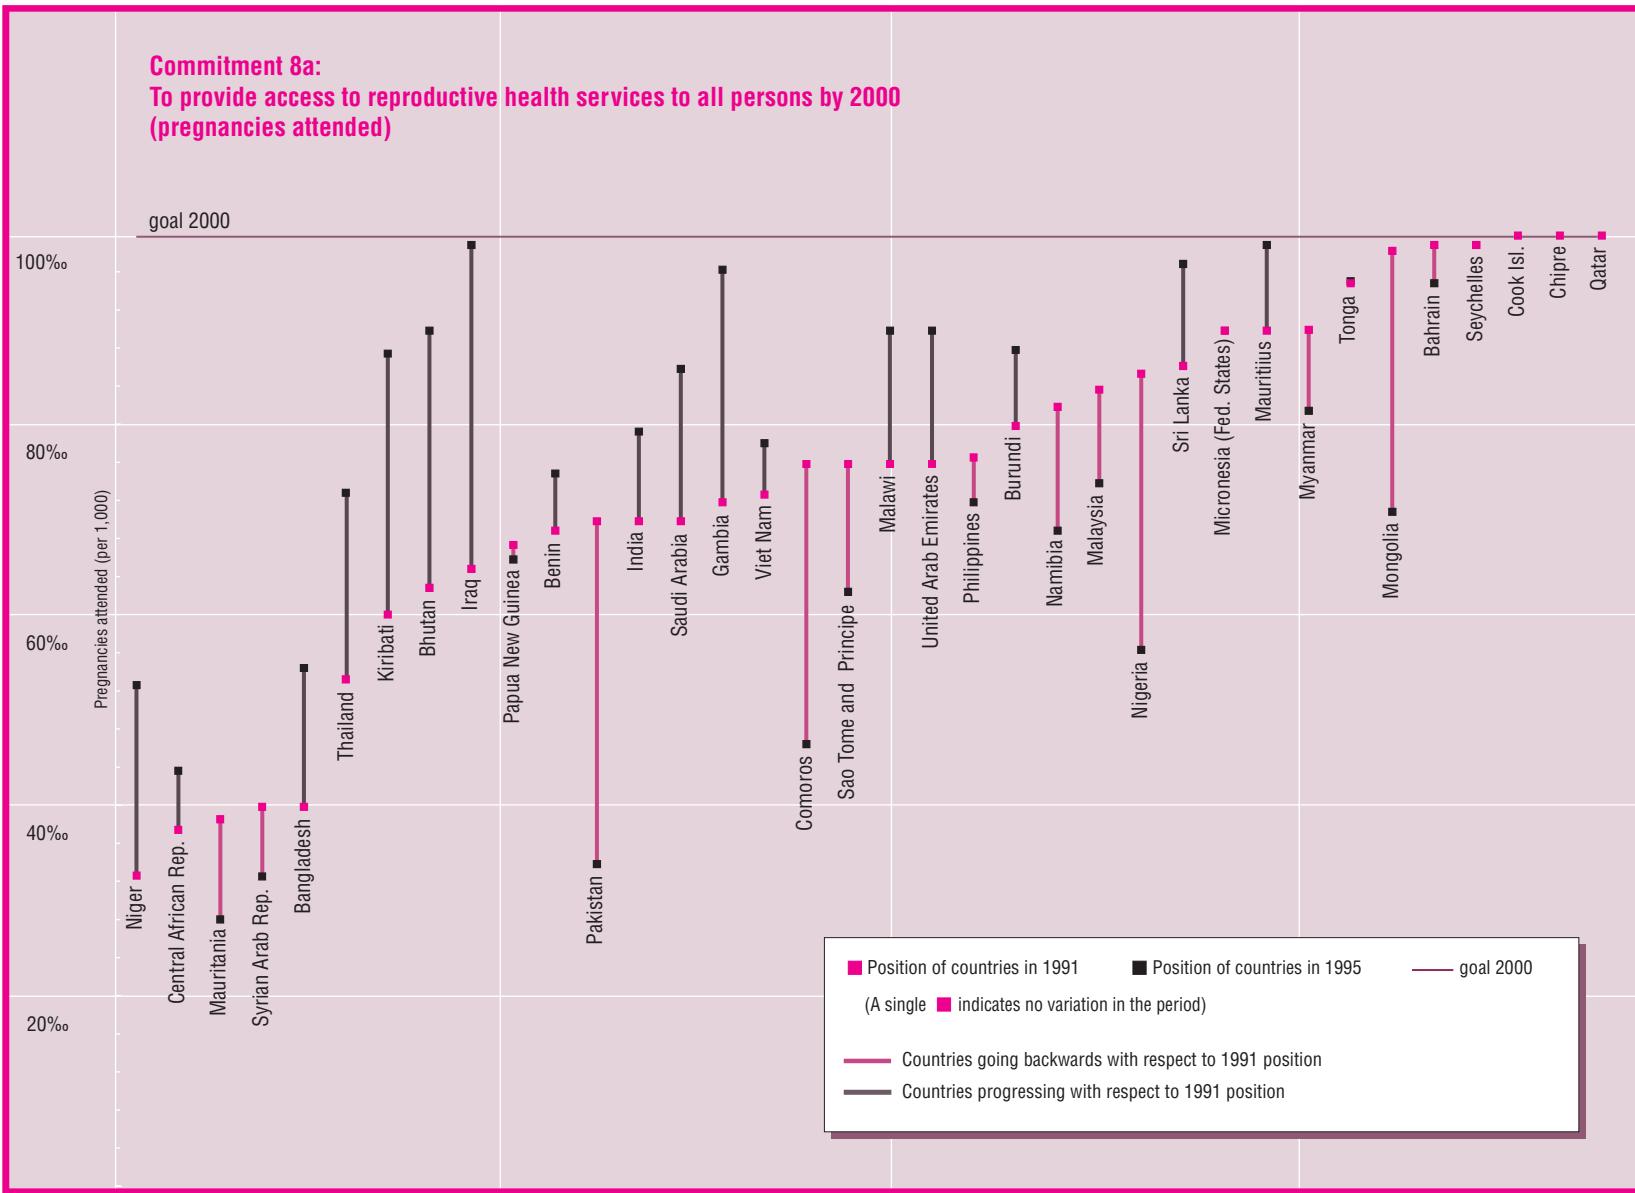

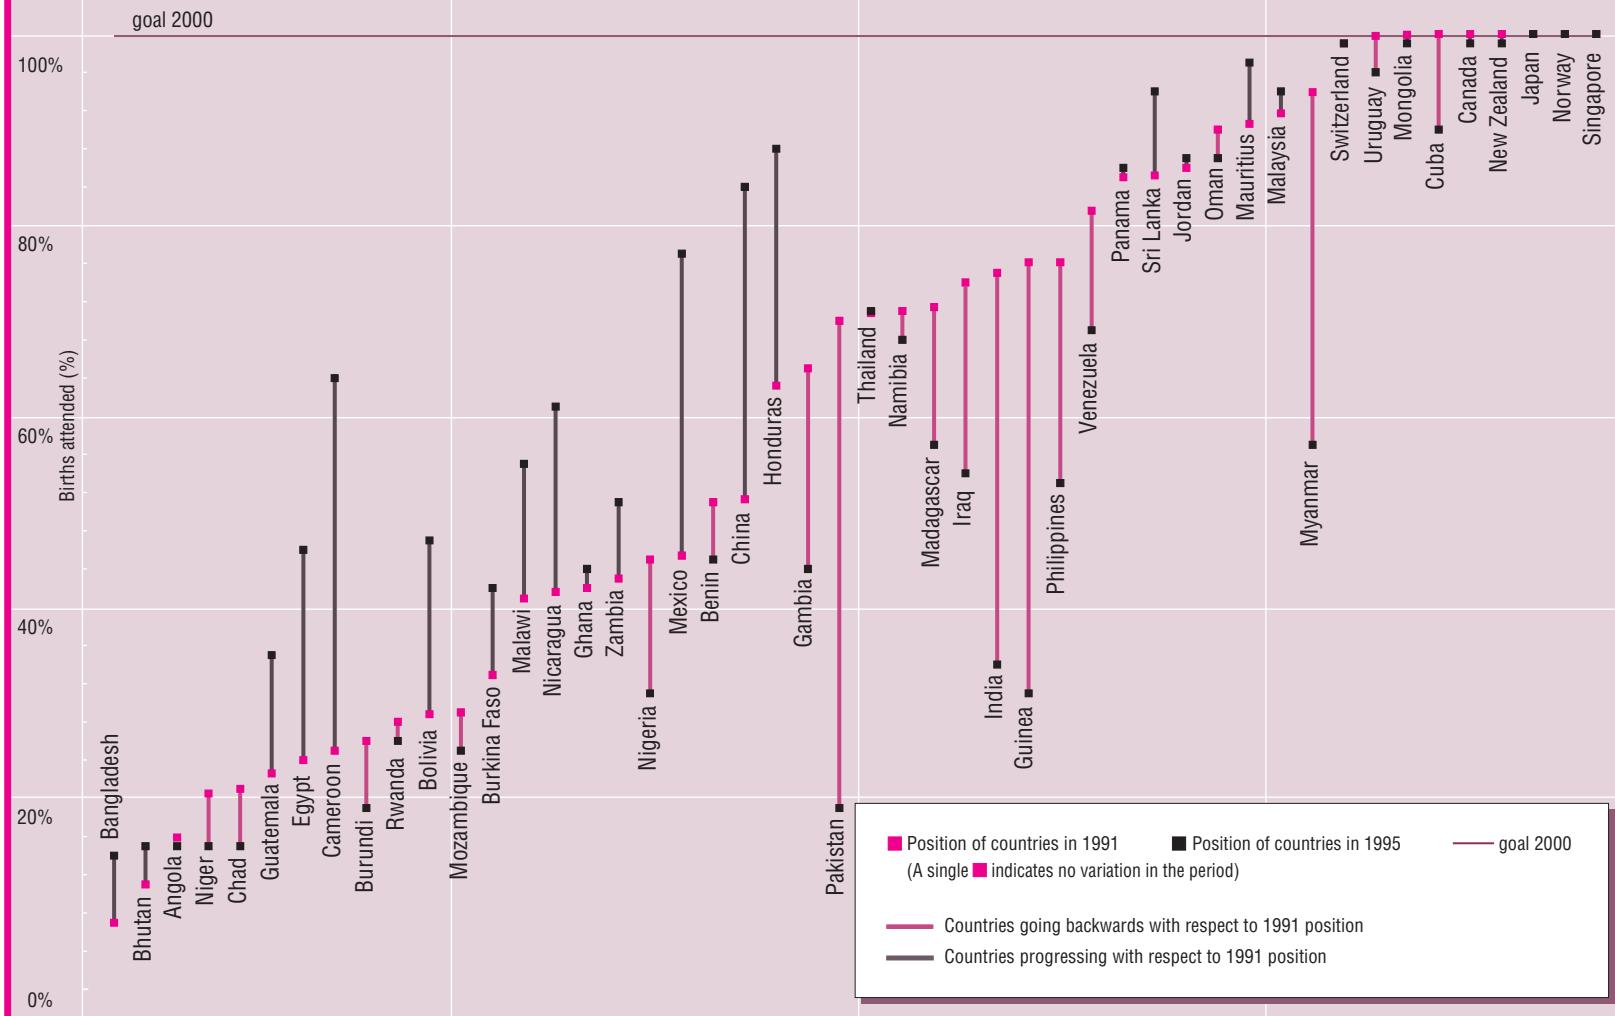

Commitment 7:
To achieve universal access to health services by 2000

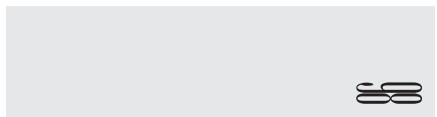

Commitment 8a:
To provide access to reproductive health services to all persons by 2000
(pregnancies attended)

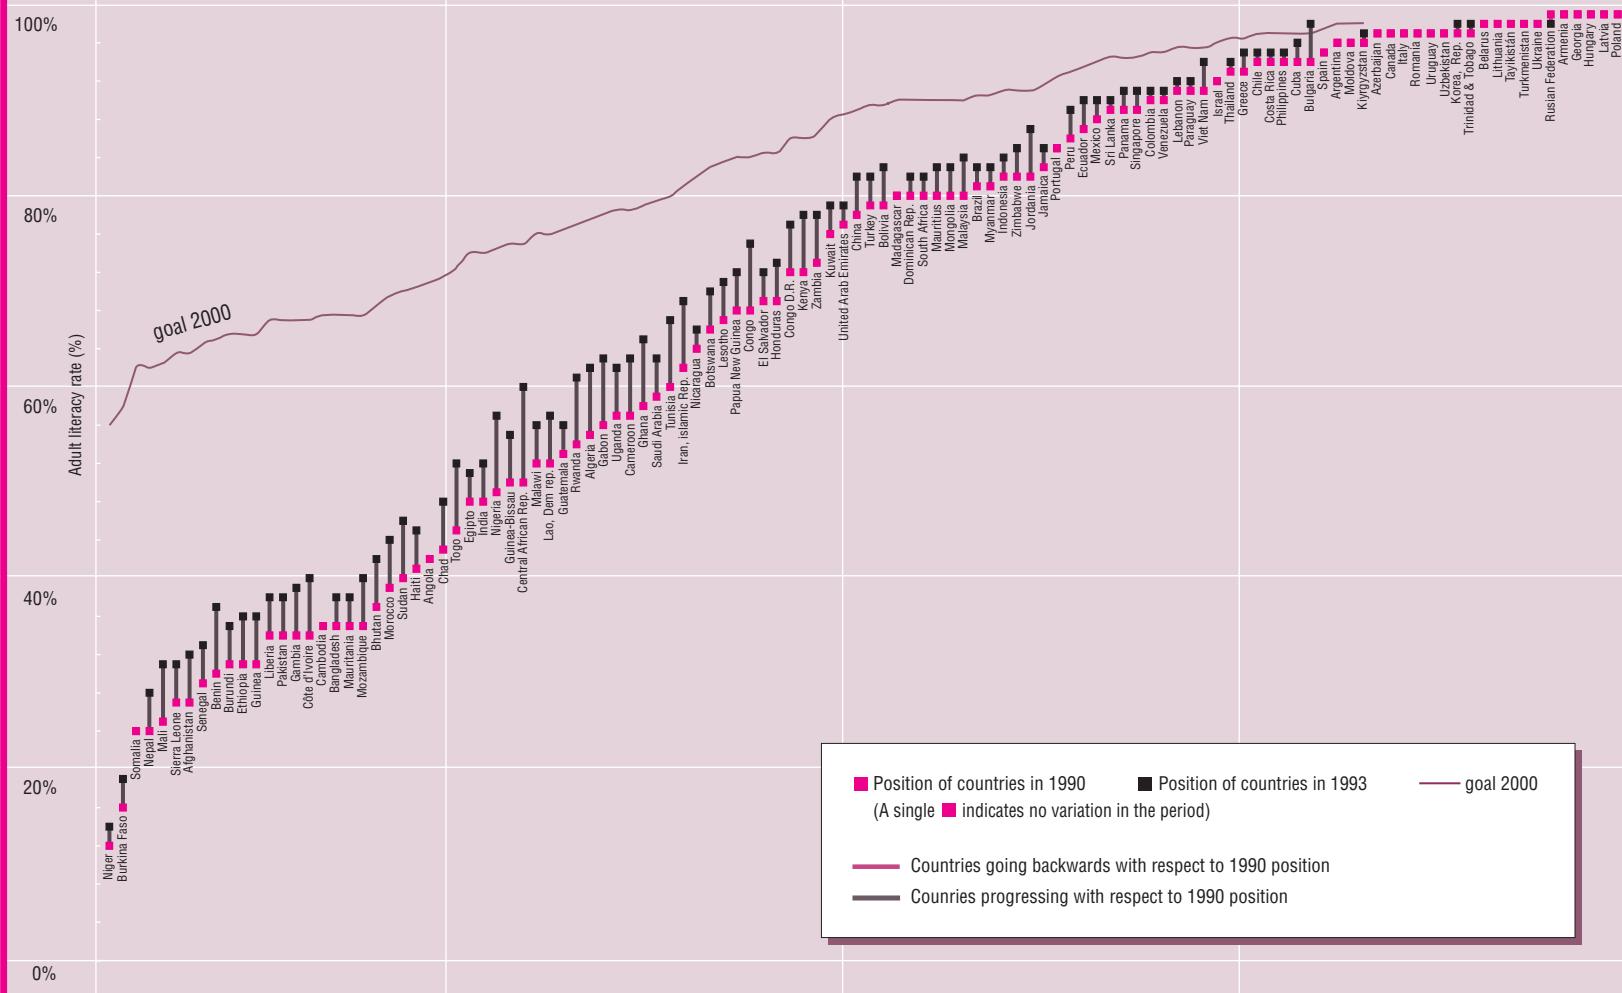

Commitment 8b:
To provide access to reproductive health services to all persons by 2000
(Births attended)

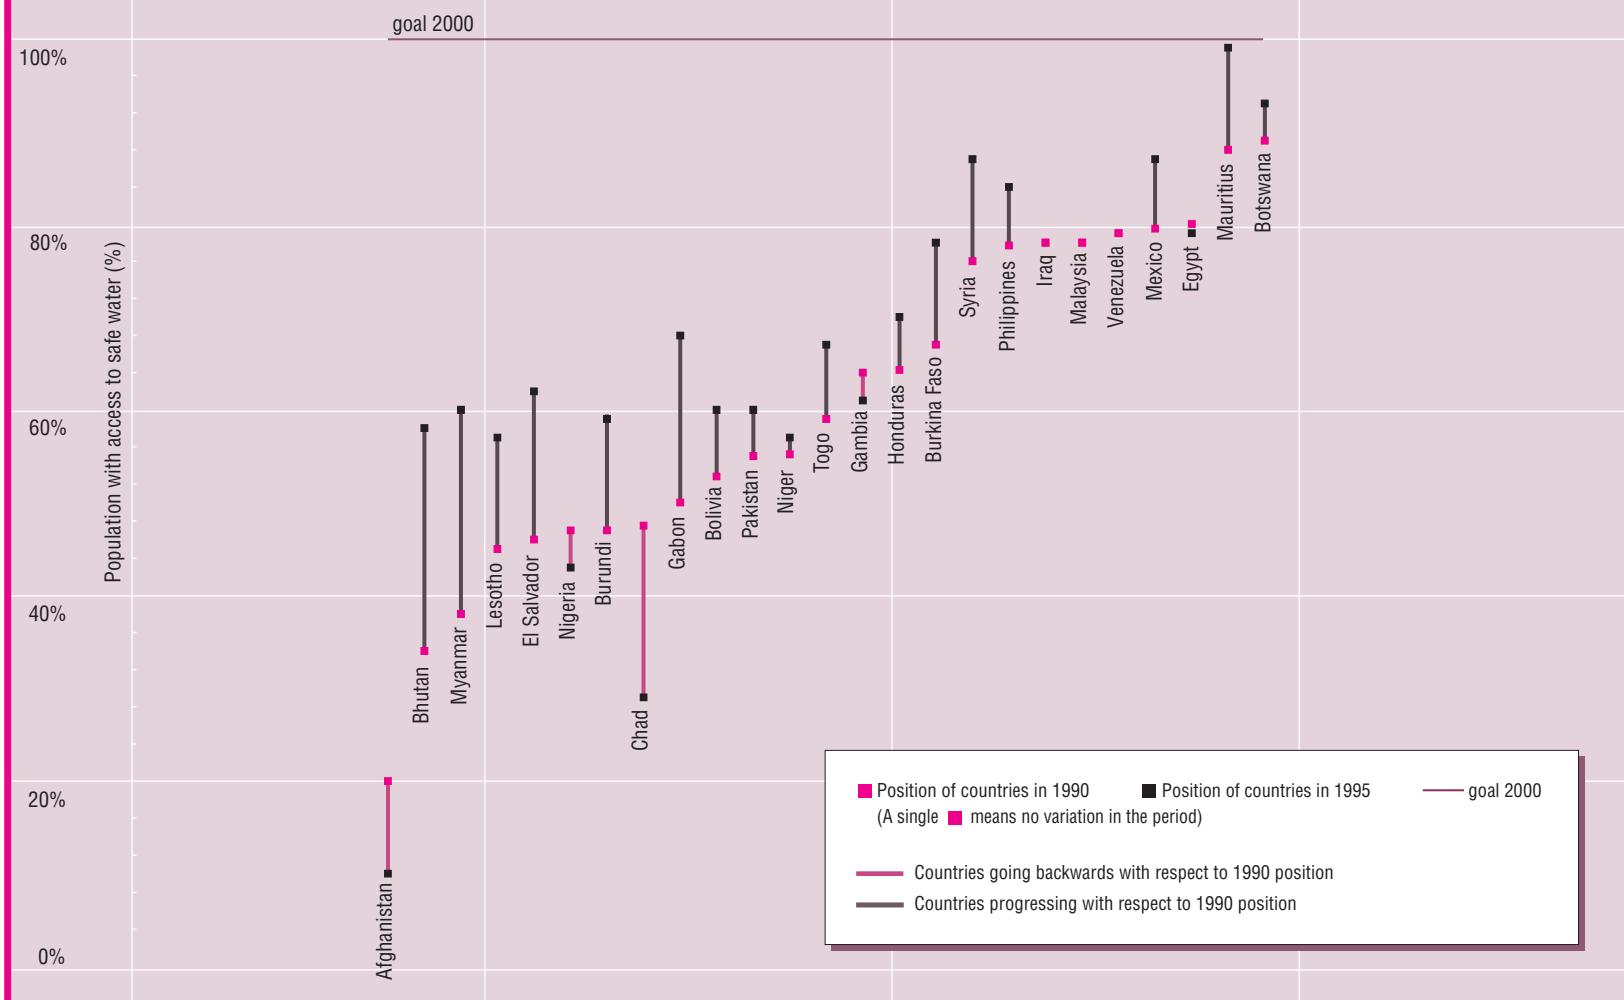

Commitment 11: To reduce adult illiteracy rates to at least half the 1990 levels by 2000

Commitment 12a:

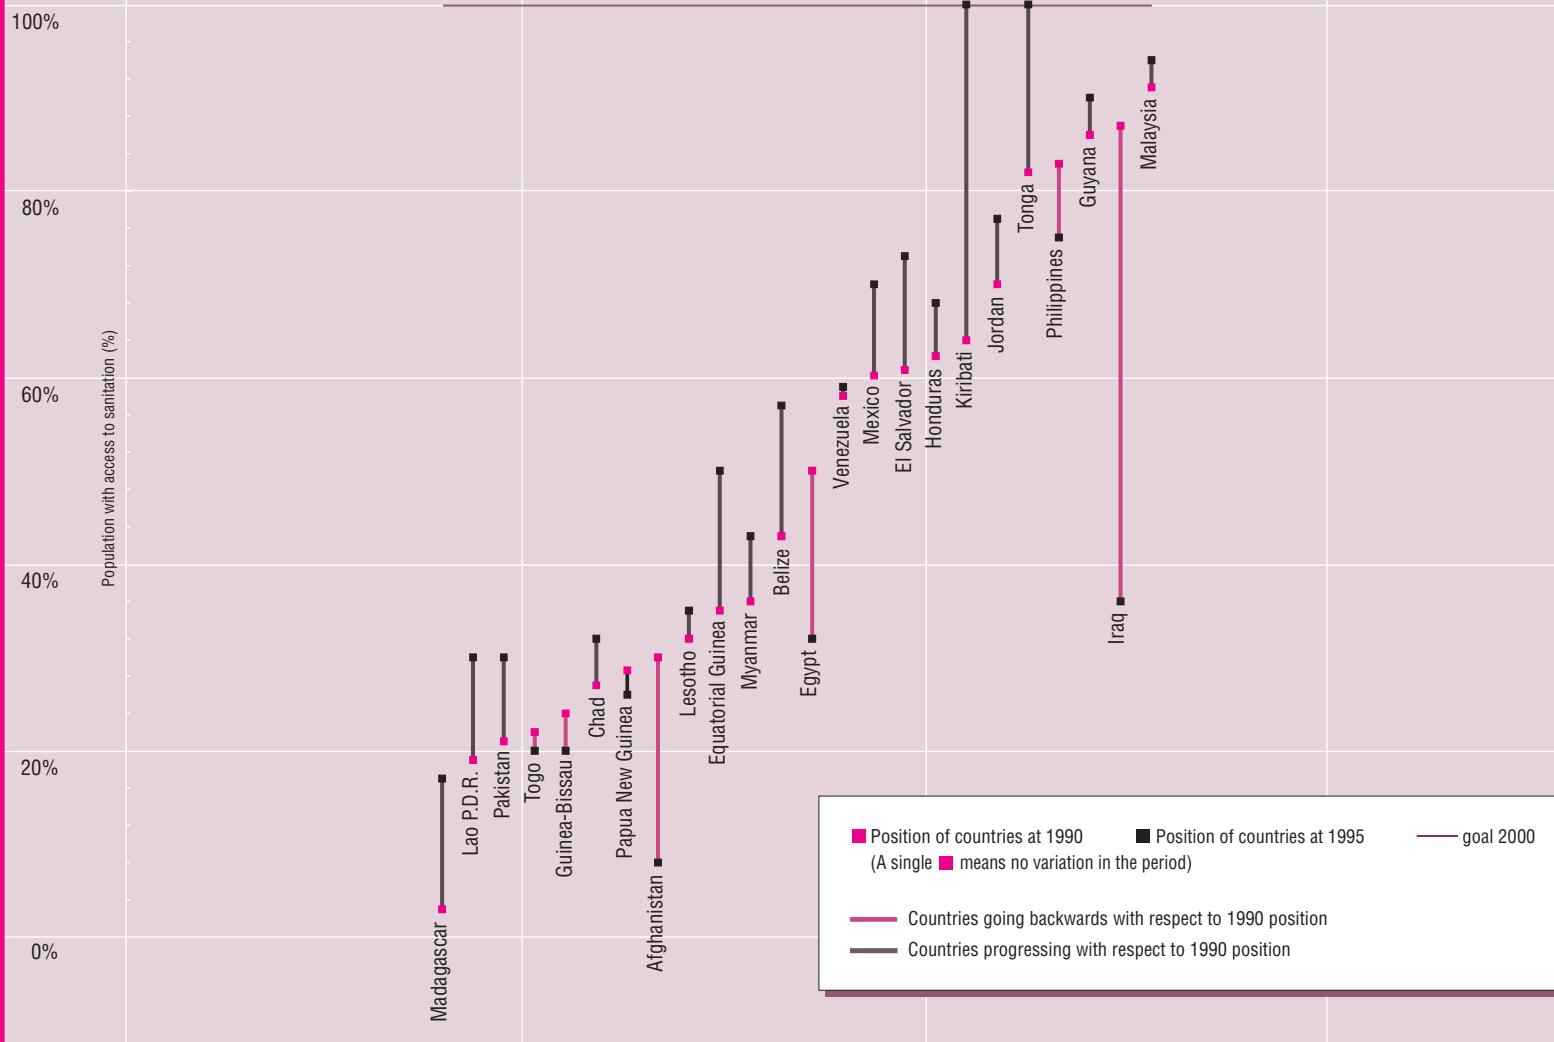

To provide access to drinking water and sanitation for all by 2000
(access to drinking water)

Commitment 12b:
To provide drinking water and adequate sanitation for all by 2000
(adequate sanitation)

goal 2000

1/ Starting points are considered low or high in relation to the average of values for all countries.

«It is not five-star hospitals or costly equipment that are needed. There are thousands of hospitals in the developing world which, with a minimum of enhancement, could offer adequate urgent obstetric attention. But even in those hospitals that possess obstetric surgery rooms, many are out of order due to the lack of about 100 U.S. dollars for maintenance expenses, consisting of anaesthetic equipment and adequate lighting. Many of these hospitals also enrol qualified surgeons who have insufficient training and experience in the practice of caesarean operations which are necessary in about 5% of all births, and may save the lives of mother and baby. In many other cases, doctors and surgeons have no access to equipment which costs a mere few hundred dollars and is indispensable for urgent obstetric cases.»

Deborah Maine in «El progreso de las naciones», 1996, UNICEF (translation by Social Watch).

Source: 1995 data - Unicef 1997.

«We shall ... formulate and strengthen time-bound national strategies for the eradication of illiteracy and universalization of basic education, which includes early childhood education, primary education and education for the illiterate, in all communities, in particular for the introduction, if possible, of national languages in the educational system and by support of the various means of non-formal education, striving to attain the highest possible standard of learning.»

Declaration and Programme of Action of the Copenhagen World Summit on Social Development, United Nations.

Commitment 12a:
To provide access to safe drinking water and
adequate sanitation for all by 2000
